Airwave Network Connection Certificate

The following equipment (hereafter referred to as the "Equipment") has been tested at the Airwave Network Reference System for connection to the Airwave network.

ALM 7029	Manufacturer/Customer:	Versions:	Test Date:	Certificate Issue Date:
Supplier and Equipment Information	Chelton Limited, The Chelton Centre, Fourth Avenue, MARLOW, Buckinghamshire, SL7 1TF.	Product / System Designation:- Transceiver Chassis 7-450-14-xxx containing a Sepura SRG3900 Tetra Radio controlled by either Chelton Control Head System CH250-13 (with dual transceiver) or CH150-14 (with single transceiver). Software Version: Part numbers 36673-E, V16.0.0.28 (dual transceiver) and 37107-E, V12.0.0.0 (single transceiver). Certified and Tested with TETRA Terminal Version: Sepura SRG3900 with V10.29-003 software in both E2E and non-E2E formats.	25 Mar 2024 to 27 Mar 2024	02 Apr 2024

At the time the Equipment was tested the Airwave Network Reference System was configured as follows:

Airwave Network Software version: -	D7.1.2 / D9.0.2 / D9.2
Airwave/Customer Test Specification Title and Issue: -	Airwave Radio Test Spec Version 5.1 (incl. Call handling, SDS & Packet Data), also including Ambulance Specific Tests and E2E Tests.

CONNECTION TEST CERTIFICATE

	Mandatory Tests	Optional Tests	Drive Test	Additional Tests (See Notes)
Test Results	Pass	Pass	N/A	N/A

The testing conducted on the Equipment suggests that it will not adversely impact the Airwave Network when connected and used (as it had been configured and tested during certification in accordance with the above specifications). Test scope was limited to conformance tests in accordance with the latest applicable specification and hence no specific functionality or performance of the product was tested unless specified below or in the test results.

Key Observation/Comments:

1. The End User will need to ensure the specific SRG3900 with V10.29-003 configuration is suitable for control by the Chelton system.
2. Hot Mike functionality is not supported (during Emergency Call or Ambient Call).

Disclaimer:

1. This Conformance Certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Solutions Ltd or 3rd party customer) to ensure the Baseline security accreditation from the NCSC has been received before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / senior officer responsible for security must give their approval inline with the Airwave Service Code of Connection.

2. The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty representation (express or implied) or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. To the fullest extent permitted by law, Airwave shall not be liable for any loss or damage (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network or any other network and/or your reliance on the content of this Connection Certificate.
