

**Network Connection Certificate for
3tc MODAS 17.13**

	Manufacturer/Customer:	Versions:	Other relevant details:	Date(s) issued:
Supplier and Equipment Information	3tc Software The Coach House Desford Hall Leicester Lane Desford Leicestershire LE9 9JJ	Product Designation: Main components tested: MODAS 17.13 ModasGateway.exe (Gateway server) v2.3.14.8 Firelink.exe (MDT) v2.3.14.2 ModasProfessional.exe (MDT) v2.4.1.35 FireRas.exe (MDT) v2.3.14.5 Other software in this release: MultiCADIService.exe (Gateway server) v2.3.14.1 Minimobs.exe (Test environment) v2.3.14.6 EmerConf.exe (Configuration Utility) v2.3.14.4 HistoryTool.exe v1.0.1.1 Network.exe (Test environment) v2.3.14.1 Radio.exe (Test environment) v2.3.14.2 Config.exe (Config resolution service) 2.3.14.1 Using TETRA terminals: Motorola MTH800 & MTM800E versions MR5.9.1 & MR5.13.1 MDT Hardware Platforms Tested with: Motorola MW810 (MODAS Pro or Firelink) Using Windows XP Pro SP3 with SQL Server 2005 Express Motorola MW810 (MODAS Pro) Using Windows XP Pro SP3 with SQL Server R2 Express	Test Date: 28-5-2013	Issued: 12/06/2013

Date : 12 Jun 2013

At the time the Equipment was originally tested the Airwave Network Reference System was configured as follows:

Airwave interface Software version	Airwave System was built to baseline R7.1.2 SPU
---	---

The testing conducted on the Equipment suggests that it will not adversely impact the Airwave Network (as it had been configured in accordance with the above specifications). The testing was limited to application conformance in accordance with the latest specification and hence no specific functionality or performance of the product was exercised unless specified below or in the test results.

Observation/Comments:

1. The network connection certification testing was based on Airwave's Data Application Conformance Test Specification Issue 4.

Disclaimer:

1. This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / Senior officer responsible for security must give their approval inline with the Airwave Service Code of Connection.

2. The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. Airwave shall not be liable for loss or damages of any kind (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network and/or your reliance on the content of this Connection Certificate.
