Airwave Network Connection Concession Certificate

The following equipment (hereafter referred to as the "Equipment") has been reviewed by the Airwave Network Reference System for connection to the Airwave network.

	Manufacturer/Customer:	Versions:	Review Date:	Certificate Issue Date:
Supplier and Equipment Information	Airbus-Defence and Space Partnership House Regent Farm Road Gosforth Newcastle upon Tyne NE3 3AF	Product Designation:- Airbus Application - MDG/ScGateway v 8.6.0 MDCG Client v 7.6.0 SDR Proxy v7.8.2 ScResponse certified and tested on platforms: Panasonic CF-33 Windows 10 Panasonic FZ-M1 Windows 10 Concession approved for platforms: Dell Latitude 12 Windows 10 Motorola MW810R2 Windows 7 GetacF110G3 Windows 7/10 Panasonic FZG1 Windows 7/10 Panasonic CF-19 Windows 7/10 Panasonic CF-33 Windows 7	04 Jul 2022	05 Jul 2022

The Equipment was reviewed for connection to the Airwave Network Reference System configured as follows:

Airwave Network Software version: -	D9.0.2 and D7.1.2
Airwave/Customer Test Specification Title and Issue: -	Airwave Data Application Conformance Test Specification V4

The concession review conducted on the Equipment suggests that it will not adversely impact the Airwave Network (as configured in accordance with the above specifications) when connected and used. The review was limited to Conformance tests in accordance with the latest applicable specification and hence no specific functionality or performance of the product was considered unless specified below or in the test results.

Key Observation/Comments:

1. The initial Conformance testing was conducted on 9/09/2020 on MDG/ScGateway version 8.3.0 and then subject to a concession following changes to the software as defined in ScGateway v8.4.0 Release Notes Version 1 dated 01/03/2021. This concession supplements the original certificate following further changes to the software as defined in ScGateway v8.6.0 Release Notes Version 1 dated 20/05/2022
2. No further conformance testing has been carried out and this Concession Certificate has been issued purely on the assessment of the submitted documents and declaration by Airbus.
3. Key changes in the release – Enhancements for Incident Command and SQL Connection retries. New features: - Automatic ACK of specific Status Messages; Concurrent Multiblock Mobilisation support; Email Alert on Battery Notification. Various bug fixes.
4. Observation from original test event: - Following the disconnection and re-connection of PEI cable on FZ-M1 a reset of the FZ-M1 was needed to recover the PEI connection.

Disclaimer:

1. This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Solutions Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / senior officer responsible for security must give their approval in line with the Airwave Service Code of Connection.

2. The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty representation (express or implied) or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. To the fullest extent permitted by law, Airwave shall not be liable for any loss or damage (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network or any other network and/or your reliance on the content of this Connection Certificate.
