Network Connection Certification
For
Airwave Crew Contact − Expires 30 April 10

The following equipment has been tested for connection to the Airwave network (the "Equipment"). The Equipment has been tested on the Airwave Reference System Rugby.

	Manufacturer/Customer:	Versions:	Other relevant details:	Date(s) Certificate issued:
Supplier and Equipment Information	Sungard Public Sector Marshfield, Chippenham, Wiltshire SN14 8SR	Product Designation:- Crew Contact Application Build versions:- Application v1.1 Thorcom SMG V1.21 TETRA Stat v1.52 Using TETRA Terminals: Sepura STH3500W and SRG 3500W v9.5	Test Date: 11 Nov 09	Issued: 1 Feb 10

At the time the Equipment was tested the Airwave Network Reference System was configured as follows:

Airwave interface Software version	Airwave System was built to baseline R6.2 R4 SPU

The testing conducted on the Equipment suggests that it will not adversely impact the Airwave Network (as it had been configured in accordance with the above specifications). The testing was limited to terminal conformance in accordance with the latest specification and hence no specific data application functionality or performance of the product was exercised unless specified below or in the test results.

Notes/Observations:

1. Crew Contact Application was conformance tested using the latest version of the Airwave Generic Data Conformance Specification. Unless specified, no specific customer functionality tested may of have been completed .

2. The application has been given limited time Certificate until end of April 10 as the application uses PID values which may conflict on Airwave Network. In order to obtain full Certificate the PID values must be registered, approved and shall not conflict on Airwave Network Service.
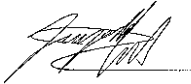

Date : 1 Feb 2010

Disclaimer:

1.   This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / Senior officer responsible for security must give their approval inline with the Airwave Service Code of Connection.

2.   The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. Airwave shall not be liable for loss or damages of any kind (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network and/or your reliance on the content of this Connection Certificate.
