Network Connection Certificate

The following equipment has been tested for connection to the Airwave network (the "Equipment").
The Equipment has been tested on the Airwave Reference System Rugby.

	Manufacturer/Customer:	Versions:	Other relevant details:	Date(s) Certificate issued:
Supplier and Equipment Information	Multitone Electronics Multitone House, Shortwood Copse Lane, Kempshott, Basingstoke, Hampshire RG23 7NL, United Kingdom	Product Designation:- Firecomms Software Version: Firecoder v2.30.01 LAN Peripheral Interface v2.05 LAN Peripheral Interface v3.17 Multitone Server CPP v2.26.00 Terminal Software Version: Motorola MTM 800 v5.6.2 & 5.9.1	Test Date: Jan 2010	Issued: 29 Jan 2010

At the time the Equipment was tested the Airwave Network Reference System was configured as follows:

Airwave interface Software version	Airwave System was built to baseline R6.2 R4 SPU

The testing conducted on the Equipment suggests that it will not adversely impact the Airwave Network (as it had been configured in accordance with the above specifications). The testing was conducted to meet the requirements for Conformance and generic functionality in accordance with the specification.

Observation/Comments:

1.   Both Conformance Testing and limited Functionality Testing were completed based on Airwave Generic Conformance Test Specification and Multitone FAT Specification.

2.   The testing was conducted using 2 varients of FRS GD92 Gateways:

3.   When using the Multitone LPI two version:
   - For SAN B Version 5.6.2 LPI Version 2.05 was used as this version Supported ATH commands
   - For SAN B Version 5.9.1 LPI Version 3.17 was used as this version did not support ATH commands so was removed from the LPI

Date : 29 Jan 2010

Disclaimer:

1.   This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / Senior officer responsible for security must give their approval inline with the Airwave Service Code of Connection.

2.   The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. Airwave shall not be liable for loss or damages of any kind (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network and/or your reliance on the content of this Connection Certificate.
