Network Connection Concession Certificate

The following equipment has been reviewed for connection to the Airwave network (the "Equipment"). The Equipment has been reviewed for concession by the Airwave Reference System Rugby.

	Manufacturer/Customer:	Versions:	Other relevant details:	Date(s) Certificate issued:
Supplier and Equipment Information	CSFRS Main St Maddiston Falkirk Scotland FK2 0LG	**Product Designation:-** FireNET Outstation v 2.18.02	Test Date: Concession	Issued: 21 Feb 13

At the time the Equipment was reviewed the Airwave Network Reference System was configured as follows:

Airwave interface Software version	Airwave System was built to baseline R7.1.2 & R7.1.1

The concession review conducted on the Equipment suggests that it will not adversely impact the Airwave Network (as it had been configured in accordance with the above specifications). The review was limited to application conformance in accordance with the latest specification and hence no specific functionality or performance of the product was considered unless specified below or in the test results.

Observation/Comments:

1. The initial testing was conducted as part of Firelink FAT on 4th December 2008 and MR5.13 Sept 12 and this concession replaces the original certificate following changes to the software as defined in the Remsdaq Release Note submitted on 13 Feb 13.

2. It is condition of this concession that testing is conducted to ensure continuing compatibility & interworking with the Fortek and Multitone CCPs using the Remsdaq FAT v3.0 Test Plan.

Disclaimer:

1. This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / Senior officer responsible for security must give their approval inline with the Airwave Service Code of Connection.
