

Network Connection Certification For Norfolk FRS Trial Only

The following equipment has been tested for connection to the Airwave network (the “Equipment”). The Equipment has been tested on the Airwave Reference System Rugby.

	Manufacturer/Customer:	Versions:	Other relevant details:	Date(s) Certificate issued:
Supplier and Equipment Information	SEED Software Department of Computer Science University of Hull Cottingham Road Hull HU6 7RX	Product Designation:- Brigid Mobile Data Solutions Versions: Seed GD92 SDS Message Transfer Agent.exe - V1.0.0.1 and Dimetra SDR Connector.dll - V1.0.0.0 Using TETRA Terminal Motorola MTM800E ver 5.6.1 E	Test Date: 28 April 08	Issued: 12 Jun 08

At the time the Equipment was tested the Airwave Network Reference System was configured as follows:

Airwave interface Software version	Airwave System was built to baseline R6.1 SSR
---	---

The testing conducted on the Equipment suggests that it will not adversely impact the Airwave Network (as it had been configured in accordance with the above specifications). The testing was limited to terminal conformance in accordance with the latest specification and hence no specific data application functionality or performance of the product was exercised unless specified below or in the test results.

Notes/Observations:

1. The test were based on the Airwave Reference System’s Generic Data Application Conformance Test Plan Issue 2.0.
2. The application had not implemented an ‘heart beat’ to detect the loss of SDR connection / failover and switch over of SDR, which is highly recommended in the next revision. Full details of the test, results and observation are covered in the Test Report.

Date : 12 Jun 08

Disclaimer:

1. This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / Senior officer responsible for security must give their approval inline with the Airwave Service Code of Connection.

2. The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. Airwave shall not be liable for loss or damages of any kind (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network and/or your reliance on the content of this Connection Certificate.
