Airwave Network Software version: -	Motorola Dimetra v 9.0.2
Airwave/Customer Test Specification Title and Issue: -	Generic Remote MCC7500 DCS ICCS Conf Issue 1.0 - (All relevant sections) Generic ICCS Integration Connection Test Plan for MCC7500 DCS Issue 4 - (Sections 4.6.10 - 4.6.12)

The concession review conducted on the Equipment suggests that it will not adversely impact the Airwave Network (as configured in accordance with the above specifications) when connected and

used. The review was limited to Conformance tests in accordance with the latest applicable specification and hence no specific functionality or performance of the product was considered unless specified below or in the test results.

Key Observation/Comments:

1. The initial Conformance testing was conducted on 24/01/2022 on Command Central CRS V15.7. and was supplemented by a Concession for V15.9 on 14/3/22. This concession supplements the these certificates following further software changes as listed in the v15.10 Release Note Issue 1 dated 28/03/2022 and described in an impact statement provided by the Command Central CRS Team.
2. No further conformance testing has been carried out and this Concession Certificate has been issued purely on the assessment of the submitted documents and declaration by Command Central CRS.
3. Observation from original certification testing: - Post CHS Cutover/Cutback port restarts are required for database updates to be accepted.
4. Key changes in the release – New features, feature updates and fixes for - Call Assist.
5. Please refer to the applicable CC CRS v15.x Release note for further information regarding functionality.

Disclaimer:

1. This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Solutions Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / senior officer responsible for security must give their approval in line with the Airwave Service Code of Connection.

2. The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty representation (express or implied) or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. To the fullest extent permitted by law, Airwave shall not be liable for any loss or damage (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network or any other network and/or your reliance on the content of this Connection Certificate.
