MOTOROLA SOLUTIONS

Airwave Network Connection Concession Certificate

The following equipment (hereafter referred to as the "Equipment") has been reviewed by the Airwave Network Reference System for connection to the Airwave network.

	Manufacturer/Customer:	Versions:	Review Date:	Certificate Issue Date:
Supplier and Equipment Information	SSS Public Safety Limited Unit B2, Methuen South Methuen Park Bath Road Chippenham SN14 0GT	Product / System Designation: DS3000 – 46x OS Versions: ICCS Server: Windows Server 2019 MCADI/SDS Client: Windows Server 2019 DCS Client: Windows Server 2019 Software Versions: MCC7500 DCS: 44.0.2 MCADI: 44.0.0 SDS: 31.1.0	2 Oct 2026	28 Oct 2026

The Equipment was reviewed for connection to the Airwave Network Reference System configured as follows:

Airwave Network Software version:	**Motorola Dimetra Core: R9.0.2** **DCS Builds:** • **CSR 656-2** • **CSR 914**
Airwave/Customer Test Specification Title and Issue:	**Generic Remote MCC7500 DCS ICCS Conf Issue 1.3**

The concession review conducted on the Equipment suggests that it will not adversely impact the Airwave Network (as configured in accordance with the above specifications) when connected and used. The review was limited to Conformance tests in accordance with the latest applicable specification and hence no specific functionality or performance of the product was considered unless specified below or in the test results.

Key Observations/Comments:

1. This release has been granted a concession based on documented evidence showing that the components interfacing with Airwave are identical to those in the 44x release, as documented in the NEC release notes dated 22nd September 2026.

2. The DS3000 ICCS solution does not support transmit on multigroup resources.

3. Testing excludes the Alias Interim Service (AIS) as requested by NEC due to the fact that the MCADI module in use is the same as previous releases.

4. NEC conducted their own confidence testing of this release against DCS CSR#914 in the Airwave Reference System on 14th-16th July 2025. No issues were identified by NEC, therefore this certificate has been reissued and supersedes previous versions.

Disclaimer:

1. This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Solutions Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / senior officer responsible for security must give their approval in line with the Airwave Service Code of Connection.

2. The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty representation (express or implied) or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. To the fullest extent permitted by law, Airwave shall not be liable for any loss or damage (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network or any other network and/or your reliance on the content of this Connection Certificate.
