

Airwave Network Connection Certificate Remote MCC7500 AIS

The following equipment (hereafter referred to as the "Equipment") has been tested at the Airwave Network Reference System for connection to the Airwave network.

	Manufacturer/Customer:	Versions:	Test Date:	Certificate Issue Date:
Supplier and Equipment Information	NICE Public Safety Tollbar Way Hedge End Southampton UK SO30 2ZP	OS Versions: Windows Server 2019 (with/without ESXi 7.0.3) Software Versions: NICE MCC7500 Logging Solution 1.2.0.6 Airwave Gateway 1.0.6.26 Server Version: NIR 9.2.1	11 July 2022	12 Mar 2026

At the time the Equipment was tested, the Airwave Network Reference System was configured as follows:

Airwave Network Software version: -	Motorola Dimetra Core: R9.0.2 & D10 AIS Builds: <ul style="list-style-type: none">• CSR 914
Airwave/Customer Test Specification Title and Issue: -	Generic Bulk Recording Interface Conformance Test Plan for Remote MCC7500 AIS Issue 1.3

The testing conducted on the Equipment suggests that it will not adversely impact the Airwave Network when connected and used (as it had been configured and tested during certification in accordance with the above specifications). Test scope was limited to conformance tests in accordance with the latest applicable specification and hence no specific functionality or performance of the product was tested unless specified below or in the test results.

Key Observations/Comments:

1. The original certification testing was conducted in July 2022. NICE have conducted their own confidence testing of this release against AIS CSR#914 in the Airwave Reference System on 2nd & 3rd June 2025. No issues were identified by NICE.
2. NICE have conducted their own confidence testing of this release against a Dimetra 10 Core and AIS release CSR#914 in the Airwave Reference System on 3rd & 4th March 2026. No issues were identified by NICE, therefore this certificate has been reissued and supersedes previous versions.

Disclaimer:

1. This conformance certificate does not indicate any security approval with respects to the operation of this hardware / software on the Airwave network.

It is the responsibility of the supplier and their customer (whether Airwave Solutions Ltd or 3rd party customer) to ensure the Airwave Accreditor's security requirements have been met before this hardware / software is deployed on the Airwave operational network. If this solution is deployed within the customer's security domain then the customers Accreditor / senior officer responsible for security must give their approval inline with the Airwave Service Code of Connection.

2. The issuing of this Connection Certificate is for information purposes only and Airwave makes no warranty representation (express or implied) or guarantee whatsoever as to the fitness for purpose of the Equipment or its ability to operate correctly when connected to the Airwave Network or any other network or equipment. Your use of the Equipment, connection of the Equipment to the Airwave Network and reliance on the contents of this Connection Certificate (for whatever purpose) is at your sole risk. To the fullest extent permitted by law, Airwave shall not be liable for any loss or damage (whether due to negligence or otherwise) arising in relation to the Equipment, its connection to the Airwave Network or any other network and/or your reliance on the content of this Connection Certificate.
