Test scope was limited to Conformance tests in accordance with the latest applicable specification and hence no specific functionality or performance of the product was considered unless specified below or in the test results.

Key Observation/Comments:

1. Testing excludes the Alias Integrated Solution (AIS) as this functionality is not supported by CRS.
2. Testing was performed using a single CADI connection.
3. Please refer to the applicable CC CRS v23.3.x Release note for further information regarding functionality.
